DIRECTOR RCEME COMMUNIQUÉ No 11/2017 –
RCEME CORPS FUND NAME CHANGE

Ref: RCEME Corps Fund Board of Directors Meeting 15 Sept 2017

1. After soliciting the various regional representatives of the RCEME Corps Fund along with our broader network of our Corps Community, the name 'Fund of the Corps of Royal Canadian Electrical and Mechanical Engineers' (RCEME Corps Fund) has been changed to the 'Guild of the Corps of Royal Canadian Electrical and Mechanical Engineers' (**RCEME Guild**) effective 15 September 2017. Be assured that this change will not affect any benefits and/or programs that were provided.

2. The new name "RCEME Guild" in its simplicity, clearly captures the essence of our new amalgamated organization and embraces the intent of our Corps of RCEME in helping to foster and improve both the Corps strength and Esprit de Corps. The name Guild is quite appropriate given that its historical significance and meaning align well with the Corps of RCEME. Guilds are by definition associations of Artisan or Craftsman with very high standards of leadership, quality, training and apprenticeship. They denote in essence a "backbone of organizations / society which is very close to the professional nexus of the Corps of RCEME.

3. I expect this to be a seamless transition but should you have any questions or concerns, please direct them to your RCEME Guild regional representative or if you prefer you may contact the RCEME Corps Adjutant, Captain G. Dzeoba directly.
