

RCEME GEMRC

Cpl Steven Breton

Cpl Breton will leave the Canadian Armed Forces on October 24, 2017 after 5 years of loyal service.

Born in Sherbrooke, in the Eastern Townships region, Cpl Breton decided to join the Canadian Armed Forces on October 25, 2012. He completed his basic training in March 2013. Later, he moved to CFB Borden to attend his DP1 in Mechanical Electrical Engineering at the RCEME School. After completing his DP1 qualification in 2013, where he finished as top candidate, Cpl Breton was transferred to 5 Svc Bn in Valcartier, and completed several courses related to his trade. In 2016, he completed his DP2. Assigned to the EMM section (Mobile Maintenance Team) of Maint Company, he had the opportunity to develop his skills on several types of vehicles, at various levels. As a vehicle technician, he was fortunate to contribute to the lowering of the VOR rates of several units at CFB Valcartier. Very appreciated by his colleagues, Cpl Breton's departure will be a great loss for the CAF and the RCEME Corps.

Steven will now try his luck in the civilian world. He will return to his native region with his girlfriend Vanessa to continue his career in cabinet making.
